**PRIORITY AREAS**

From a list of 15 indicators, survey respondents were asked to select 5 that they perceived as the most urgent for their city. This is the total bar. The higher the percentage of responses per area, the greater the priority for the city.

- Affordable housing
- Air pollution
- Road congestion
- Security
- Unemployment
- Recycling
- Public transport
- Corruption
- Green spaces
- Fulfilling employment
- Health services
- Basic amenities
- School education
- Social mobility
- Citizen engagement

The left hand section of each bar shows the Alignment - the proportion of those respondents who also answered the corresponding survey questions low. A strong Alignment implies that these areas also demand priority attention.
