From a list of 15 indicators, survey respondents were asked to select 5 that they perceived as the most urgent for their city. This is the total bar. The higher the percentage of respondents per area, the greater the priority for the city.

The left hand section of each bar shows the Alignment - the proportion of those respondents who also answered the corresponding survey questions at a low. A strong Alignment implies that these areas also demand priority attention.

**Health & Safety**

Basic sanitation meets the needs of the poorest areas
Recycling services are satisfactory
Public safety is not a problem
